IDOT CAREER DAY CHICAGO

The Illinois Department of Transportation Career Day is a workforce development tool designed to introduce high school students to careers in the transportation, construction and engineering industries. Through hands- on activities, exhibits and heavy equipment demonstrations, local students will have the opportunity to learn about several exciting transportation-related careers.

IDOT Career Day is made possible by industry partners responsible for building and maintaining our ever-expanding transportation system. Among these partners are professional organizations, schools of engineering, vocational schools, trade unions, engineering companies and others with direct involvement in the transportation industry. Through the collaboration of these organizations and IDOT, youth can be inspired to consider one of the many rewarding careers in transportation, thus providing the industry with the professionals of tomorrow.
